Application Instructions for Institutions and Individuals Interested in Organizing an Event with the German Center for Research and Innovation (GCRI)

Application Procedures

Please submit your application via e-mail using the attached application form.

All application forms must be sent to info@germaninnovation.org, with “Application” and your institution’s name in the subject line. Applications will be evaluated by the GCRI Programming Committee on a regular basis.

Contact Information

The application must include the name and contact information of **one** individual from the applying institution. All correspondence regarding the application and planning of the event will be directed towards this individual. If there are any changes, it is the applicant’s responsibility to send an e-mail with the name of the new contact person to info@germaninnovation.org. For organizational purposes, please include the name of your institution and the title of your event in the email.

Events

Applicants are not limited to the event formats listed on the application form. We encourage applicants to develop innovative event formats that encourage communication, networking, and knowledge sharing.

Note: The GCRI offers three event spaces at the German House (871 UN Plaza): an auditorium, which seats up to 162 people, a restaurant, which seats up to 86 people, and the lobby and mezzanine levels, which accommodate approximately 200 people.

German Center for Research and Innovation – New York

Germany
Land of Ideas

The German Center for Research and Innovation (GCRI) New York facilitates transatlantic collaboration by bringing together leaders in science, the humanities, and technology. The GCRI provides a platform to foster creativity and enhance innovation in a rapidly changing world.

GCRI realizes its mission through a wide range of activities, such as:

- Convening workshops, symposia, and conferences to showcase cutting-edge research and explore collaborative solutions to global problems
- Providing a “one-stop shop” for information about the German research landscape and funding sources
- Promoting German contributions to research, development, and innovation
- Creating opportunities for graduate students and other young researchers to connect with German institutions and support them in their careers
- Supporting North American universities as they develop strategies to enhance collaborations with Germany in science, the humanities, technology, and industry
